

Ross Dental Group Is Settled in at One Lane Plaza

One Lane Plaza welcomed Ross Dental Group, the office of Edward W. Hesse, D.D.S. and associates to the plaza in April 2015. They occupy Suite J in the middle of the plaza.

Their presence here has generated many people coming in and out of the plaza each week day.

Dr. Hesse has served the Ross community for more than 40 years. Many of his employees are members of the Ross or Hamilton community. Since the move to One Lane Plaza, Ross Dental Group has grown exponentially. For this reason Dr. Hesse now employs two associates; Dr. Christopher French and Dr. Tera Moeller. They have a team of five full time hygienists, 2 part time hygienists, three expanded function assistants, one assistant and four administration members. Additionally, Dr. Michael Miller comes to Ross Dental Group every other week to perform root canals. This keeps their patients from having to be referred out of their office to a place they are unfamiliar with.

At Ross Dental Group you can expect to be welcomed by a friendly individual in a warm and comfortable atmosphere. This professional team is committed to being respectful of the patient's needs and eager to educate about good dental health. Ross Dental Group will go above and beyond to ensure patient comfort.
